I chose to live in this neighborhood that is an ecological and rural neighborhood, for that reason, besides being very green, the proximity with the neighbors is incredible, we ride a bike, we walk, my office is in front of my house, it helps a lot because It is a beautiful green area and it counts a lot because I am a landscaper. We chose to live here for a year and a half, after I lost my parents. I am extremely happy, I live in Brazil, but here it is a privilege to live in such a beautiful place and with very close people, the only thing is that the city center is 8km, but with so many positive sides, it is okay to take the road once and for all to go downtown. My emotional and physical well-being has never been better!
